DRAPING THE CHARTER

3
F. 8

Tonight we drape the charter in loving memory of Sister (Brother) _____
who has followed the Light from the East to its Ultimate Source.

The long years during which we were privileged to associate with Sister
(Brother) _____ are an important part of our cherished memories. The
absence of our beloved member will be keenly felt as we continue in the work
which meant so much to her (him).

However, the contributions of _____ have become an enduring part of
our association and as we, too, follow the Light from the East we shall find our
lives richer and fuller for having walked a part of the way with her (him).
