Group C No. 5.
To Welcome Past Matrons and Past Patrons.

My friends, we welcome you because of your past service, and there are no members more welcome to our Chapter than those who have served us in the years which are past. It was your zeal and ability that guided your Chapter when you presided in the East. The work which you did, the sacrifices which you made, and the wise counsel which you gave are all blended together and are of great value to our Order now and in the years which are to come. We trust that you will continue to be deeply interested in our work for we need help and encouragement in guiding our destinies through the coming years.
