Sister Sarah Love, you have served as organist of Granville Chapter No. 47
since 1954. That means 20 years of service you have given.

Music is God's way of making our lives more happy and harmonious, as we
go through life. Our chapter meetings would be almost meaningless, with-
out your music. It livens up our meetings. Just as soon as you strike the
first note, we proudly march in and take our stations.

No chapter meeting is complete without music; for it has an important part
in every phase of the work of our Order. Each organist is presented
with a challenge to respond to a great variety of moods, for which much
effort and thought and preparations are required. But the reward of pro-
viding harmony with the ritualist is work far out weighs the effort.

Sister Sarah Love, we are ever so grateful to you.

Presentation of gift.

You have been faithful through the years,
As all our records show,
And you will always remain this way
As years may come and go.

For the service you have given,
We bring our tribute true,
For time moves on, but does not change
The faith we have in you.

Please accept this gift as a token of our love and appreciation.

Let's all join in singing: Tune "Smiles."

There are notes from the piano,
There are notes to play upon the harp;
There are notes that thrill us from the organ
Though at times they might be flat or sharp.

There are notes that tinkle on the lyre
There are notes to warble cheer from a bird,
But the notes that come from Sarah Love's playing
Are the sweetest we ever heard.
